INTERFAST

INTERFAST is an accessory that allows you to connect a TOOLBAG tool pouch and a TOOLEASH drop-prevention tether. It is versatile and compatible with any harness that has slots. The design is compact and durable to limit bulk on the harness and keep all the attached elements secure when working at height.

INTERFAST is compatible with any harness that has slots.

The INTERFAST connection system makes it easy to install the TOOLBAG pouch on the harness, providing a compact solution that is easy to use.

The FAST button allows you to quickly connect and disconnect elements.

To make working at height easier, Petzl offers a complete solution to help prevent tools from being dropped.

Short Description Quick connection accessory for the TOOLBAG and TOOLEASH
